

Florida Medicaid Preferred Drug List Effective July 1, 2025

The Florida Medicaid Preferred Drug List (PDL) is subject to revision following consideration and recommendations by the Pharmaceutical & Therapeutics (P&T) Committee and the Agency for Health Care Administration.

The PDL is in order by The Therapeutic classification.

To locate a specific drug or Therapeutic class, use The search feature available in Adobe Acrobat Reader.

Phosphate Binders and Prescription Strength Vitamins are covered for dialysis patients.

While a product name may be listed on the PDL, a specific NDC may or may not be reimbursable.

Auto PA In-Progress:

Prior Authorization (PA) Column Definitions:

Auto PA - System automated criteria check for specific requirements (e.g., diagnosis, age, previous therapies, etc.). If all requirements are found, the claims will pay at the pharmacy counter without need of manual prior authorization submission.

Clinical PA - These drugs require prior authorization submission that must include clinical documentation. The drugs that require clinical prior authorization review and the prior authorization forms can be found in this link:

<https://ahca.myflorida.com/medicaid/prescribed-drugs/medicaid-pharmaceutical-therapeutics-committee/pharmacy-prior-authorization-forms>

Cystic Fib Diag Auto PA - Claims for these products will pay at the pharmacy counter if the diagnosis of cystic fibrosis is found in the system.

Requires Med Cert 3 - The Food and Drug Administration (FDA) requires participation (by prescribers, pharmacies, and/or patients) in certification, education, training, or agreements prior to dispensing certain drugs. By entering certification code "3", the dispensing pharmacy is confirming that FDA requirements were met.
